S. 3096

COMMENTS ON PENDING LEGISLATION

Office of General Counsel

I spoke to the Chief, Alien Affairs Section, concerning this bill and was advised by him that there were no provisions in the bill which would hamper his function. He informs me that the major provisions of the bill, intended to relieve the carrier of the cost of deportation, represent a recurring issue and that on the basis of past experience he thought it extremely unlikely that the bill would have any chance of passage. For this reason, I have not conducted a detailed analysis of the minor amendments which the bill would effect. At the present time, no action by the Agency seems necessary.
